EDUCATION

Northeastern University – College of Engineering

Master of Science in Information Systems GPA: 3.84/4.00

Toronto, ON

Sep. 2024 – May 2026

Dayananda Sagar College of Engineering

Bachelor of Engineering in Electrical and Electronics

Bengaluru, India

Aug. 2018 – May 2022

EXPERIENCE

Prodapt Solutions

Associate Software Engineer

Bangalore, India

Apr. 2022 – Mar. 2024

- Built and maintained telecom web applications using Angular 14+, TypeScript, and reusable component architecture, improving team development efficiency across sprint cycles
- Reduced client-side bug rate by writing automated unit tests with Jasmine and conducting thorough peer code reviews to enforce coding standards
- Contributed to sprint planning and agile ceremonies, consistently delivering features on schedule and improving team velocity
- Mentored 3+ interns and junior developers through structured code reviews, design walkthroughs, and knowledge-sharing sessions

PROJECTS

E-Commerce Platform | MongoDB, Express, React, Node.js, Stripe, React Query, JWT

- Built a full-stack e-commerce application with role-based authentication, product management, cart system, and order tracking using the MERN stack
- Integrated Stripe payment gateway with checkout sessions and webhooks for real-time payment confirmation and order fulfillment
- Designed cart system with localStorage and database sync, ensuring zero cart loss during guest-to-user transitions
- Implemented server-side search, filtering, sorting, and pagination for scalable product browsing across large catalogs
- Used React Query (useQuery, useMutation) for optimized data fetching, caching, and background synchronization

Career Portal | MongoDB, Express, React, Node.js, Cloudinary, Multer, JWT

- Developed a role-based job platform supporting seeker, employer, and admin roles with JWT authentication and refresh token flow
- Built resume and profile photo upload functionality using Multer and Cloudinary for scalable cloud-based file management
- Created employer dashboards for job posting, applicant tracking, and real-time application status management
- Secured APIs with rate limiting, protected routes, and owner-based access control to prevent unauthorized data access
- Added search, filtering, sorting, and pagination for efficient job discovery across all listings

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, SQL

Frameworks & Libraries: React, Next.js, Node.js, Express.js, Angular 14+, Redux Toolkit, React Query, Tailwind CSS, Bootstrap

Databases: MongoDB (Atlas, Compass), MySQL, Oracle SQL

Tools & Platforms: Git, GitHub, Postman, Cloudinary, Stripe, Jira, Jenkins, Confluence

Testing: Jasmine, REST API Testing (Postman)
